

HAYLING ISLAND CAMERA CLUB
PREPARING DIGITAL FILES FOR COMPETITION

Master Image – Save As > with another title, you will then have the master image to work on again in the future.

Copied File

- In Photoshop, under Image > Image Size > tick Constrain Proportions and under Pixel Dimensions enter a width of 1400 (landscape) or 1050 (portrait) > OK (image to be no more than 1050 high)
- Other software will have similar choices under Image Size.
- Image should have flattened layers and be saved as .jpg file type with maximum quality (100% or jpg-12 setting).
- File should be saved with the title as follows: TITLE of image in upper case, followed ‘by’ your name – single spaces between words, no quotes, eg ST PAULS CATHEDRAL by John Smith

Forms – please complete form below to assist with checking.
